

Self-centering vise

MMC 240 2-Jaw

MMC is a mechanically actuated vise for easy installation. It can be applied in machine tools and assembly machines. The spring actuated clamping mechanism allows to save on hydraulic or pneumatic supply systems.

Advantages

- Clamping actuated by springs. Opening by pushing a button.
- Variable gripping force depending of spring compression.
- All functional parts are hardened and ground to ensure a high repeatability.
- Low profile: maximum use of the machine room.
- Base jaws for tongues and grooves.

SPECIFICATIONS

Model	Stroke Per Jaw	Theoretical operating closing force per jaw	Total Theoretical operating closing force per jaw	Weight	Repeatability
MMC 240	6 mm	5220-6210 N	10440-12420 N	20 kg	±0.02 mm
	0.24 in	1174-1396 lb	2347-2792 lb	44 lb	±0.0008 in

Working Temperature **5 - 60 °C (41 - 140 °F)**

Noise Emission (Sound Pressure) **≤ 70 dB(A) in any direction**

DIAGRAM

For a better operation of the vise please consider the distance between the clamping point and the top surface of the jaws.
